Here's why Certis BioLabs is the go-to place for your testing:

Every test is analysed at a UKAS-accredited and Lab 51 compliant laboratory

Collections are managed by trained and DBS-checked professionals

Highly competitive prices

Rapid turnaround times of 3-5 days with full chain of custody

Our standard panel of 42 drugs is among the widest offered on the market

Easy to digest reports that meet UK court requirements

All findings are reported for your peace of mind

A dedicated Case Manager to manage your instruction from start to finish and provide bespoke support

Access to an extensive library to test new and emerging drugs

Full panel reporting options if you want to be alerted to the presence of drugs that weren't originally requested
