About this event

This event follows the release of the highly acclaimed second edition of NHS Law and Practice, authored by David Lock KC, Leon Glenister, and Hannah Gibbs, together with other Landmark Chambers' barristers; published by the Legal Action Group. The conference will provide cutting-edge insights into a range of current legal issues affecting lawyers advising NHS bodies, those acting for patients, and NHS commercial partners. It will also prove a superb opportunity to network with others practising in the field.
